**National Association of Schools of Music
Code of Ethics, Article VII**

A transferring student who has not completed a degree program can be considered eligible for financial aid during the first term of enrollment in the new institution only if the music executive of the school from which the student is transferring specifically approves. These arrangements are formally transacted between the music executives of member institutions. Approval is to be sought *prior* to the offering of the financial award by the institution to which the student may transfer. The foregoing provisions of this Article apply only to currently enrolled students who are (1) majoring in music, (2) receiving merit-based financial aid, and (3) planning to begin study as a music major at the new institution in the next academic term. Students who have completed a degree program at any level, including community/junior-college students who have completed a two-year program of study, or whatever part of the university parallel curriculum is available at the two-year college attended are exempt from this regulation.
